**POINT**  
Progress

**Point Progress are a cloud-based software company helping businesses replace tedious tasks with valuable insight.**

**Powered by user-focused design, award winning support , our dedicated team have been working with growing companies in competitive markets over the past 20 years to help create the tools they need to save time, money, and allowing them to concentrate on their core business.**

Our products are cloud software solutions used by businesses large and small.

Our requirement is to ensure that our products are available and secure 100% of the time.

DataStore365 provide the infrastructure to make this task as easy as possible. Through VMWare Cloud Director and NSX our virtual servers are hosted and maintained securely in the Datastore365 Cloud

We have a good working relationship with the team at Datastore365. They offer competitive pricing, for an excellent service which is flexible to our needs.

Using Datastore 365 services has enabled us to provide our clients with reassurance that the data we store is secure, and the service they offer is backed by security accreditations such as ISO:27001 which are in line with our own high standards.

We are very happy with the overall service we receive from Datastore365. They are quick to deal with any queries we have, and their flexibility allows us to adjust the service to suit our needs.
